

CLIMATE CORPS

# Accelerate and Accomplish Your Energy Goals.

EDF Climate Corps: a summer fellowship program that embeds trained, custom-matched grad students alongside your team to accelerate clean energy projects within your facilities.

**You won't believe what you can accomplish in a summer.**

[edfclimatecorps.org](http://edfclimatecorps.org)

# We're your energy matchmaker.

We get to know you and **your energy goals** before we handpick your fellow from elite applicants from top universities.

Based on **your needs**, we pair you with a fellow with the right experience, training and passion to design **customized solutions** across a wide array of projects, including:

Energy Efficiency

Clean/Renewable Energy

Data Analysis

Energy Management Strategy

Supply Chain Efficiency

Engagement & Behavior Change

Financial Evaluation & Planning

**...and more!**

**460+**  
organizations have worked with EDF Climate Corps

Over  
**\$1.5 billion**  
in energy savings identified

**We embed** a bright, enthusiastic fellow inside your organization, where they provide **hands-on help** to **solve** your energy needs and navigate the complex and ever-changing world of **sustainability** and **energy** management.

Fellows are the next generation of business and sustainability leaders. Hosting a fellow is a **low-cost** and **low-risk** way to save money while growing your clean energy program.

Application  
Deadline:  
**February 1,  
2019**
