

The premier fellowship program for clean energy and sustainability

Join *the* exclusive network of over one thousand energy and sustainability professionals, working to advance climate solutions in high-impact organizations around the world. Since 2008, EDF Climate Corps has placed nearly 1000 fellows in leading organizations including Under Armour, Google, City of Los Angeles, BlackRock and Lyft.

As an EDF Climate Corps fellow, you will:

- be custom-matched with a host organization based on your location, industry and project type preferences;
- participate in an interactive in-person training and have access to ongoing professional development opportunities, webinars and a growing array of online resources.

Where we work

Creating Commitments

Setting and achieving GHG goals that are based in science.

Scaling Energy Efficiency

Advancing new technologies and financing options across building portfolios.

Accelerating Renewable Energy

Uncovering and developing onsite and offsite opportunities.

Evaluating Supply Chain Sustainability

Engaging suppliers with a focus on energy and emission reductions.

Fellow Spotlight

Daniel Willis - 2016

As an EDF Climate Corps fellow, Daniel investigated adaptive scheduling of LED street lighting for the City of Boston. Now a Senior Regulatory and Legislative Analyst at the SF Public Utilities Commission, he tracks, analyzes and participates in regulatory proceedings and legislative activity affecting the City of San Francisco's municipal electricity utility and community choice aggregation programs.

Donna Sanders - 2016

As an EDF Climate Corps fellow in Corning Incorporated's manufacturing plants, Donna analyzed risks to critical equipment in the event of power outages and investigated alternative and more environmentally friendly sources of power.
