

edfclimatecorps.org

The premier fellowship program for clean energy and sustainability

Join *the* exclusive network of over one thousand energy and sustainability professionals, working to advance climate solutions in high-impact organizations around the world. Since 2008, EDF Climate Corps has placed over 1000 fellows in leading organizations including New Balance, Google, TPG Capital, Lyft and the NYC Mayor's Office of Sustainability. As an EDF Climate Corps fellow, you will:

- be custom-matched with a host organization based on your location, industry and project type preferences;
- participate in an interactive in-person training and have access to ongoing professional development opportunities, webinars and a growing array of online resources.

Where we work

Creating Commitments

Setting and achieving GHG goals that are based in science.

Scaling Energy Efficiency

Advancing new technologies and financing options across building portfolios.

Evaluating Supply Chain Sustainability

Engaging suppliers with a focus on energy and emission reductions.

Accelerating Renewables & Electrification

Uncovering and developing onsite and offsite opportunities.

Fellow Spotlight

Radhika Lalit - 2015

As an EDF Climate corps fellow, Radhika helped Blue Shield of California plan for implementing solar at facilities owned by them. Three years later the company launched its solar installation which is estimated to avoid over 800 metric tons of CO2 each year. Now a Manager with Rocky Mountain Institute, Radhika is leading the Global Cooling Prize – an international competition to develop efficient and affordable air conditioning solutions for millions of people across the globe.

Daniel Katzenberger - 2018

As an EDF Climate Corps fellow, Daniel helped Best Buy shape a carbon and energy reduction goal that conformed to the Science-Based Targets Initiative. Post-fellowship, Daniel stayed on to help design the company's approach to reducing Scope 3 GHG emissions, enabling Best Buy to announce an innovative goal that would help consumers reduce their carbon emissions 20% by 2030 and to save an estimated \$5 billion over this timeframe.

Jumpstart your sustainability career

CLIMATE CORPS

By the numbers

\$1,250

The weekly stipend you'll receive over the 10-12 weeks of your fellowship

+500

The number of public and private organizations where we've placed fellows

1 in 3

The number of Fortune 100 companies we've worked with

1700

The number of energy and sustainability professionals in our network

80%

The percentage of alumni fellows working on energy and climate as a component of their full-time jobs

Apply early to ensure better host matching and more job options!
